

I surveyed a small audience to see if anyone would be interested in using this feature.

I didn't ask the question directly but aimed to understand their listening patterns.

Here are the results of the survey

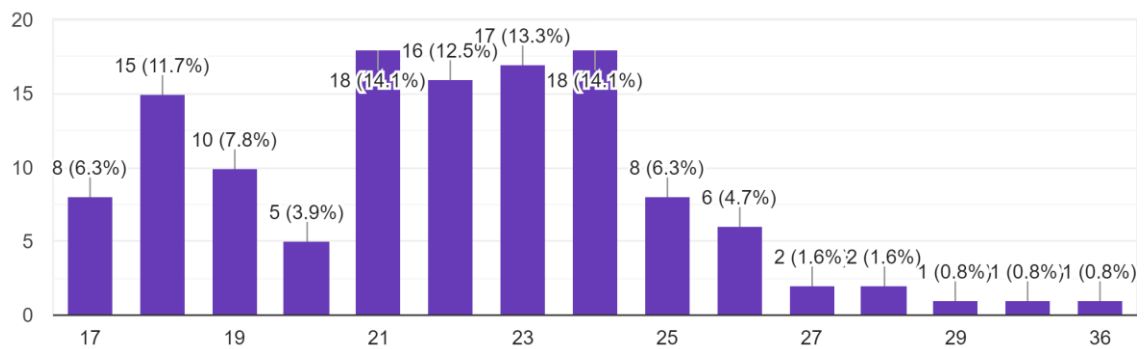

How would you categorize yourself?

128 responses

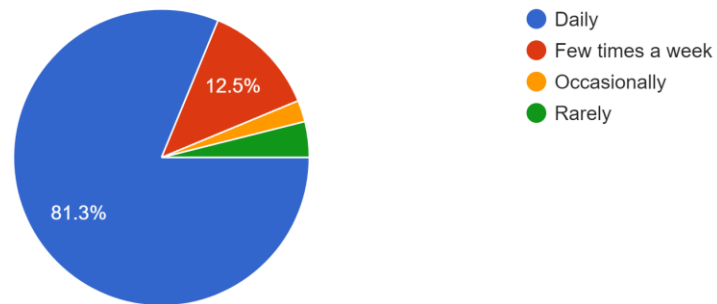

Age

128 responses

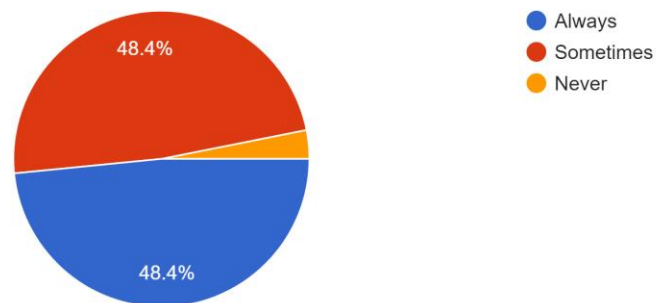

How often do you listen to music on apps like Spotify, YouTube Music, Gaana, etc.?

128 responses

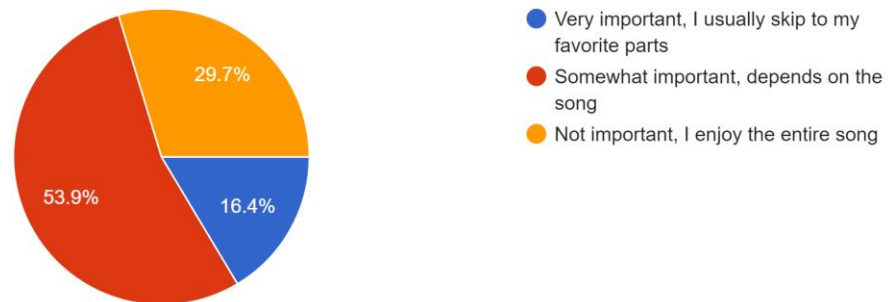

Do you listen to songs depending on your mood?

128 responses

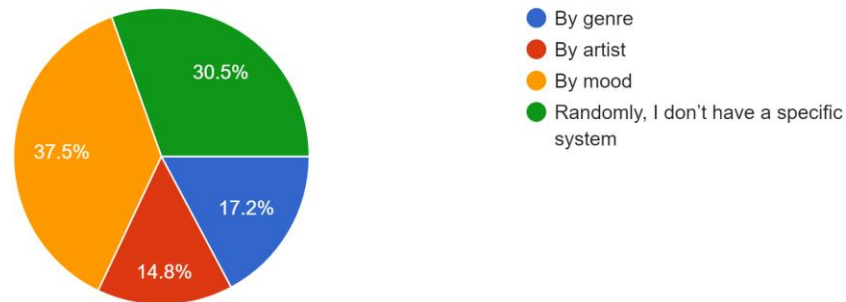

How important is it for you to listen to specific parts of a song rather than the whole song?

128 responses

How do you currently organize your music?

128 responses

It is clear that music and mood have some correlation. Close to 70% of the respondents have an inclination towards a particular part of a song, and the majority also want their music to be organized in some way.
